Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Proposed draft of claim 12 was discussed in terms of 112 2nd and how it overcomes prior art. The proposed language of claim 12 appears to overcome the 112 2nd rejection and clarifies that the claim is directed only to the pipe protector per se. Hernandez, Lutz, and Howson were discussed as not having holes in the sleeves, lacking a gap, or being unable to have holes placed in the sleeve, respectively. However, the emphasis of the "gap bounded by the tubular sleeve, the conical neck, and the ventilation pipe" does not appear to overcome the structure of the prior art as this limitation depends on the presence of the ventilation pipe. The Examiner suggests claiming specific features of the protector that could stand alone and distinguish it from the prior art or claiming the combination of the protector and the ventilation pipe. Nonetheless, arguments and amendments will be considered upon filing.
